Slice vs Splice

Original Array

Sliced items are returned in a new array
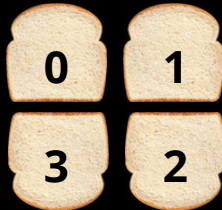

slice(1,3)
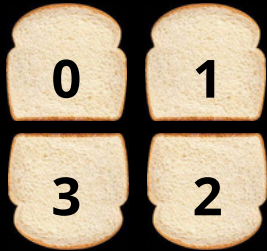

0 1
3 2

1
2

After the slice operation , there is no change in the original array
Hence, it remains the same

0 1
3 2

This is original array

Original Array

Spliced items are returned
in a new array

0   1

3   2

splice(1,2)

1

2

After the splice operation , there is a change in the original array

0

3

This is original array
